README

The game is a similar version of clash of clans with lesser features implemented on terminal.

General Instructions

You can choose the character to be king or queen at the start of every level.

There are 3 levels.

There is a timer of 120 seconds on every level, if the troops cannot destroy all the buildings within the time, you lose the game.

Run the below command to start the game.

```
python3 game.py
```
